

IN THE CLAIMS

Please amend claims 1-11 as follows.

A clean copy of the amended is included below. A marked up copy of the amended claims is included in Appendix A.

Sub
DI
1. ~~(Amended) A method of trace activation in a mobile communications~~

2 system, wherein a mobile station is in communication with the mobile communications
3 network, whereby a trace report is generated for a mobile station, wherein the method
4 comprises:

5 a communication from a mobile station is directed to a predefined trace
6 activation number and
7 tracing is activated for the communicating mobile station.

CI
Cont.
1 2. (Amended) The method according to claim 1, wherein the method further
2 comprises:

3 a call from the mobile station is directed to the predefined trace activation
4 number,

5 tracing is activated for the calling mobile station, and
6 ~~tracing is deactivated when the call is ended.~~

1 ~~3. (Amended) The method according to claim 1, wherein the method further~~

2 comprises:

3 a message from the mobile station is directed to the predefined trace

4 activation number and tracing is activated for the said mobile station.

1 4. (Amended) The method according to claim 3, wherein the method further

2 comprises:

3 tracing is deactivated when a preset time period is elapsed.

1 5. (Amended) The method according to claim 3, wherein the method further

2 comprises:

3 tracing is deactivated when a second message from the mobile station is

4 directed to the predefined trace activation number.

1 6. (Amended) The method according to claim 1, wherein the method further

2 comprises:

3 ~~defining at least one said trace activation number.~~

1 ~~7. (Amended Twice) The method according to claim 1, wherein the call is~~

2 made to a predefined trace activation number.

1 8. (Amended Twice) The method according to claim 1, wherein the call is

2 forwarded to a predefined trace activation number.

1 9. (Amended Twice) The method according to claim 1, wherein the method

2 further comprises:

3 tracing is activated and deactivated automatically at the switching center.

1 10. (Amended Twice) The method according to claim 1, wherein subscriber

2 tracing is activated for the communicating mobile station.

11. (Amended Twice) The method according to claim 1, wherein equipment

tracing is activated for the communicating mobile station.
